Use RLS and protected admin routes. Sensitive operations must be server-side.

14. Cloudinary

Cloudinary is the media platform for images, gallery photos, videos, sponsor logos and large media.

```
Admin Upload
↓
Cloudinary
↓
Cloudinary URL / Public ID
↓
Supabase stores metadata
↓
Next.js displays optimized media
```

Never expose Cloudinary API secrets in client-side code.

15. Admin Panel — Final Documentation

Admin model: ONE ADMIN ROLE. The panel is protected by Supabase Authentication.
